The big step and some big results are yet to come, but if you **keep working mentally** you will make the breakthrough. Focus on the league as well, now you have more knowledge and understanding of your new club.

Comment:

Started to work hard, that is a good way, do the hard work every day(!), and never give up. You will see that your limits are further than you thought. Plenty of room to improve here and as you know it is related to your mental strength. Your physical limit is in your mind, you have all to get better and stronger in this area which will lead to a raise in your table tennis level. You should find pleasure in hard daily work. **The key is: do something extra every day!**

Comment:

The idea is clearly to work on your weaknesses especially to work on your own style. You have good strokes, good physical level, so everything is on place. However to win table tennis games you need more. **You need to find the way to win the points** and build your game up, not only with rallies or good rythem of the game. If you find this than it brings victories which lead to confidence and than you will make the jump. **So keep cool but effort in that area!**

Comment:

You are well organised and planned, your room and the tasks in the flat you do well. However we expect that ideas and problem solvings come more from you. **Don't wait for us, but be your own driver of your own plan!** Have an impact on your own schedule, take initiative, this is crucial for the next steps. You have started to work extra which is great, continue giving input and ideas from your side!

Comment:

You have done well and made small but important steps in your table tennis project. For you the key is: work with your head, go deeply inside the mental area and all of the game perspectives will be followed by that improvement. **Use your head and ideas in your game and continue working physically!**
