Comment:

You knew and we knew too that after your injury the way back will be very hard in terms of results. Hence no expectations were made and still you did ok in the first half of the year. The **two victories at the end of the year** were vital to get the reward of your work and efforts. You kept faith and the right attitude, so the goal is to continue this way and more results will come.

Comment:

You adapted very well to your new environment mentally, **kept your own way** and **worked tirelessly**. This is your strong part and you can move mountains with your mental strenghts. The key is to keep the balance between your own way and your table tennis development. For now you could get well with the methods and approach at practice and you will just get better in terms of understanding of your own needs and what you can take from the trainers.

Comment:

Continue this way! Crucial is to find the balance between taking care about your hip and to be able to be free in your head to work 100% physically. Your injury is the past already, you are fully recovered so your capacity will grow regarding physical work.

Comment:

The idea is to keep improving technically and to build all areas of your game. In addition to develop winning parts of your game. So general development together with your special strengths is the way to go on with your game. **Keep patient and faith** because actually you just started to build your game for top level table tennis. It will all take time but when you will have it than you will become very strong!

What can be done better?

You came back very well from injury, a new area starts from now on for you. You are ready to hear the reality which is very important. **Keep working hard and time is on your side!**

What are your next GOALS?

Main direction is still on your development with a bit of more focus on performance. You will be more involved in competition and it is great fun to compete and have the injury in the past to be able to focus on the next level! **Hide and keep your way!**
